# Table of contents

<b>LIST OF TABLES AND FIGURES</b> .....	<b>I</b>
<b>LIST OF ABBREVIATIONS</b> .....	<b>III</b>
<b>1. INTRODUCTION</b> .....	<b>1</b>
<b>2. THEORETICAL BACKGROUND</b> .....	<b>3</b>
<b>2.1 Adrenocortical hormones</b> .....	<b>3</b>
2.1.1 Biosynthesis.....	3
2.1.2 Development during growth .....	5
2.1.3 Abnormal adrenal androgen secretion .....	5
2.1.4 Regulation of adrenal androgen secretion .....	6
2.1.5 Dietary factors and adrenal androgen secretion.....	8
2.1.6 Metabolism of adrenocortical hormones .....	8
<b>2.2 Estrogens and testosterone in children</b> .....	<b>10</b>
<b>2.3 Methodological considerations – measurement and assessment of steroid hormones</b> .....	<b>12</b>
2.3.1 Assessment of urinary glucocorticoids and adrenal androgens .....	12
2.3.2 Measurement challenge of estrogen determination in prepubertal children.....	12
2.3.2 Renal handling of steroid hormone metabolites .....	13
<b>2.4 Puberty</b> .....	<b>14</b>
2.4.1 Definition of pubertal timing.....	14
2.4.2 Hypothalamic signals and pubertal onset.....	16
2.4.3 Nutritional status and pubertal onset.....	17
2.4.4 Peripheral signals and pubertal onset .....	18
<b>3. RESEARCH QUESTIONS</b> .....	<b>20</b>
<b>4. GENERAL METHODOLOGY</b> .....	<b>22</b>
<b>4.1 Study population and design</b> .....	<b>22</b>
4.1.1 Population and design of the DONALD Study.....	22
4.1.2 DONALD subpopulations of the current thesis.....	23

<b>4.2 Dietary assessment .....</b>	<b>24</b>
<b>4.3 Anthropometric assessment.....</b>	<b>24</b>
<b>4.4 Pubertal stage assessment.....</b>	<b>25</b>
4.4.1 Somatic growth-related pubertal markers – ATO and APHV .....	25
4.4.2 Sexual maturation-related pubertal markers – Tanner stages and Menarche/voice break.....	26
<b>4.5 Urinary measurements .....</b>	<b>27</b>
4.5.1 24-h urine samples.....	27
4.5.2 Short description of glucocorticoid, adrenal androgen, and estrogen measurements .....	27
4.5.3 Influence of storage duration.....	29
<b>4.6 Parental information and children’s birth data.....</b>	<b>29</b>
<b>4.7 Statistical analyses .....</b>	<b>30</b>
<b>4.8 Preliminary methodological work – Urine volume dependency of     renally excreted glucocorticoid and adrenal androgen metabolites     in healthy children.....</b>	<b>32</b>
4.8.1 Summary.....	32
4.8.2 Introduction .....	32
4.8.3 Methods .....	33
4.8.4 Results .....	34
4.8.5 Discussion.....	36
<b>5. STUDIES.....</b>	<b>40</b>
<b>5.1 Study I – Body fat and animal protein intake in addition to     steroidogenic enzymes affect adrenarchal androgen secretion.....</b>	<b>40</b>
5.1.1 Summary.....	40
5.1.2 Introduction .....	40
5.1.3 Methods .....	41
5.1.4 Results .....	44
5.1.5 Discussion.....	49
<b>5.2 Study II – Prepubertal adrenarchal androgens and animal protein     intake independently and differentially influence pubertal timing..</b>	<b>52</b>
5.2.1 Summary.....	52
5.2.2 Introduction .....	52

5.2.3 Methods .....	54
5.2.4 Results .....	56
5.2.5 Discussion.....	63
<b>5.3 Study III – Prepubertal glucocorticoid status and pubertal timing ....</b>	<b>65</b>
5.3.1 Summary .....	65
5.3.2 Introduction .....	66
5.3.3 Methods .....	67
5.3.4 Results .....	68
5.3.5 Discussion.....	72
<b>5.4 Study IV – Prepubertal urinary estrogen excretion and its relationship with pubertal timing .....</b>	<b>75</b>
5.4.1 Summary .....	75
5.4.2 Introduction .....	76
5.4.3 Methods .....	76
5.4.4 Results .....	79
5.4.5 Discussion.....	85
<b>5.5 Summarized results of Studies II-IV .....</b>	<b>88</b>
<b>6. GENERAL DISCUSSION.....</b>	<b>90</b>
<b>6.1 Methodological strengths and limitations .....</b>	<b>90</b>
<b>6.2 Interpretation and implication of study results .....</b>	<b>93</b>
6.2.1 Nutritional status and adrenarche .....	93
6.2.2 Prepubertal steroid hormones and pubertal timing.....	95
<b>6.3 Conclusions and Perspectives .....</b>	<b>97</b>
<b>7. REFERENCES .....</b>	<b>99</b>
